

EXPLORE // Science & Muslims?

Do you have a passion to love and serve Muslims where Jesus is not yet known?
Are you involved in or interested in the Sciences?
If so, then the Frontiers Science Explore Day could be for you!

Saturday 9 October // High Wycombe // 10am - 4pm

[Cost - FREE, please bring a packed lunch, drinks provided]

Could you use your conservation skills in the Muslim world? Are there opportunities in bio-sciences, physics, chemistry and geology for long term service? Could you assist short-term by coaching field workers? Could palaeontologists see worshipping communities amongst the unreached? The possibilities are almost endless.

Science skills are in demand in the Muslim world and our speakers will be highlighting some current trends, case studies, research needs, and opportunities. Whatever point you may be at, from making initial enquiries to looking for more in-depth advice and training, Explore is about being better prepared for the journey.

Bring questions // Get them answered!

To find out more or to book a place on our Science Explore Day, drop an email to gillie@frontiers.org.uk or give the Frontiers office a call on 0303 333 5051
